

Outstanding Visibility with Reliable Performance

XF Series

There is increasing demand for outdoor signage for delivering information and advertisement. With high-brightness and reliable performance, the open frame XF Series is able to achieve these goals effectively in any location.

The background image shows a man in a dark suit and tie standing at a bus stop, looking at a smartphone. A white bus is partially visible on the right. The bus stop has a large digital display (LG XF Series) showing bus schedules and an advertisement. The display is mounted on a black frame. The background shows a street with trees and a clear sky.

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

High Brightness

With a great brightness of 3,000 cd/m², XF series clearly deliver contents and attract public attention, which is the ultimate display for outdoor visibility.

Visible with Polarized Sunglasses

QWP* enables clear visibility even when the viewer is wearing polarized sunglasses.

* Quarter Wave Plate

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

No Blackening

Even under direct sunlight exposure, the open frame XF series remain free of blackening defects under 110°C and provide superior quality for outdoor usage.

Conventional

XF series

Smart Brightness Control

The screen brightness is automatically adjusted depending on the ambient light. The brightness is increased in light for better visibility, while it is decreased in darkness for efficient power management.

Auto Brightness

Outstanding Visibility with Reliable Performance

XF Series

Product Reliability

High Operating Temperature

Its high reliability under high operating temperatures reduces additional costs for air conditioning system.

Conformal Coating

The product can be often unavoidably exposed to dust and water during maintenance. Conformal coating on every major circuit board eliminates such troubles by protecting it against dust, iron powder, humidity, etc.

Outstanding Visibility with Reliable Performance

XF Series

Easy Maintenance

High-Performance with webOS Smart Platform

Quad Core SoC* can execute several tasks at the same time without a separate media player. In addition, webOS 3.0 platform enhances user convenience with intuitive UI and simple app development tools.

Slim Design

Thanks to its thin depth, the XF series takes up less space and leads to ease of installation for various applications.
